MPSD-2 USB/DUAL SD CARD MP3 PLAYER & MIXER

This compact, lightweight, all-in-one digital audio player eliminates the need to carry CDs, a laptop and even a mixer, making it the ideal choice for mobile DJs. This versatile unit reads digital music files (MP3, WMA, etc) from either an SD card or USB device, giving the user full control of their music library at the touch of a button.

- Both players can access the USB or SD cards simultaneously
- Switchable mixer output option
- Auto cue
- Fast track search
- Large back lit LCD display
- Folder search, multi-cue function
- Seamless loop (uninterrupted loop playback)
- Microphone input; balanced output with volume control
- Adjustable pitch: $\pm 4\%$, $\pm 8\%$, $\pm 16\%$
- Compatible with USB 2.0/1.1/1.0 mass storage devices
- 4 CUE banks button can hold cue points or seamless loops
- Instant start within 10ms (sound is produced immediately when the PLAY button is pressed)
- 100% anti-shock
- Built-in audio mixer
- Music master tempo
- MP3 track listings, ID3 tags
- Jog wheel pitch bend $\pm 100\%$
- Digital EQ, mixing and level control
- Crossfader start control for CD player
